SUMMARY

Senior Product Designer with 9+ years across health, learning, and product-led web applications, spanning early-stage startups (4–25 people) to enterprise environments (200+ people, Fortune 500). Proven at improving usability, accelerating delivery, and partnering with product owners and development teams to solve complex UX problems in B2B SaaS and enterprise environments.

EXPERIENCE

Freelance Product Designer — **Self-employed** (Startup, ~4 people · B2B SaaS) Feb 2026 – Present

- Own end-to-end product design for an early-stage data-space startup on a 4-person team, from discovery through interface delivery, working directly with the founders.

Senior Product Designer — **Medrecord** (Startup, ~25 people · B2B SaaS) Sept 2023 – March 2026

- Sole designer for an AI-powered health platform, setting design direction across a 25-person org and aligning product, design, and engineering decisions.
- Redesigned complex clinical and operational workflows end-to-end, cutting friction for users making high-stakes decisions daily.
- Shaped UX strategy for new AI-driven features, shipping within strict regulatory and technical constraints.

Senior Product Designer — **KnowL Solutions** (Startup, ~10 people · B2B SaaS) Oct 2022 – Sept 2023

- Sole designer for a 10-person team, designing the KnowL web learning platform in direct partnership with the product owner and developers.
- Rebuilt the design system into the team's single source of truth, improving component consistency and cutting design-to-development rework.
- Delivered developer-ready designs and stayed embedded through handoff to protect quality at launch.

Product Designer — **Symphony** (Enterprise client, Fortune 500 · B2B SaaS) Aug 2019 – Oct 2022

- One of two designers on a 10-person project team, delivering design for a Fortune 500 client's enterprise platform used by millions of people.
- Simplified complex workflows and information architecture across large-scale products, reducing friction for enterprise users at scale.
- Shipped high-visibility releases on tight deadlines, working closely with cross-functional engineering and product teams.

UI/UX Designer (Lead) — **Propeller** (Startup · B2B SaaS) Mar 2019 – Aug 2019

- Lead designer for an early-stage startup, owning design direction end-to-end from discovery through handoff.

UI/UX Designer (Lead) — **Saburly** (Startup · B2B SaaS) Aug 2017 – Mar 2019

- Lead designer for a small startup serving mostly Swedish B2B clients, also shaping internal product concepts alongside client work.

UI/UX Designer — **Social Explorer** (Product company, team of 4) Apr 2015 – Jul 2017

- One of four designers on a product team, contributing to projects that won the 20th Annual Webby Award in Law and a 2015 Webby Award Honor for Best Government website.
- Designed data-heavy, accessibility-conscious interfaces for government and public-sector users.
