SUMMARY

Product design leader with 11+ years across health, learning, and B2B SaaS, spanning early-stage startups to Fortune 500 enterprise platforms. Sole designer setting UX direction and AI-interaction strategy for an AI-powered health platform, shipping features within strict regulatory constraints. Partners with product and engineering leadership to solve ambiguous, high-stakes problems, with a strong accessibility (WCAG) foundation.

EXPERIENCE

Freelance Product Designer — Kaphera

Feb 2026 – Present

(Startup, ~4 people · B2B SaaS)

- Own end-to-end product design for an early-stage startup building AI-ready data infrastructure, on a 4-person team, from discovery through interface delivery, working directly with the founders.

Senior Product Designer — Medrecord

Sept 2023 – March 2026

(~25 people · B2B SaaS)

- Sole designer for an AI-powered health platform, setting design direction across a 25-person org and aligning product, design, and engineering decisions.
- Redesigned the AI-powered clinical documentation workflow end-to-end, cutting documentation time per session from ~25 minutes to 2–3 minutes (~90% reduction) while maintaining regulatory compliance.
- Shaped UX strategy for AI-driven features using a human-in-the-loop model — clinicians retain full override — driving high adoption of AI-generated reports across care teams.

Senior Product Designer — KnowL Solutions

Oct 2022 – Sept 2023

(~10 people · B2B SaaS)

- Sole designer for a 10-person team, designing the KnowL web learning platform in direct partnership with the product owner and developers.
- Built the design system from the ground up — none existed before — establishing it as the team's single source of truth and cutting design-to-development rework.
- Delivered developer-ready designs and stayed embedded through handoff to protect quality at launch.

Product Designer — Symphony

Aug 2019 – Oct 2022

(Enterprise client, Fortune 500 · B2B SaaS)

- One of two designers on a 10-person project team, delivering design for a Fortune 500 client's enterprise platform used by millions of people.
- Delivered strong results on the initial engagement, leading the client to extend the partnership into a larger, 3-year contract.
- Simplified complex workflows and information architecture across large-scale products, reducing friction for enterprise users at scale.
- Shipped high-visibility releases on tight deadlines, working closely with cross-functional engineering and product teams.

UI/UX Designer (Lead) — Propeller

Mar 2019 – Aug 2019

(Startup · B2B SaaS)

- Lead designer for an early-stage startup, owning design direction end-to-end from discovery through handoff.

UI/UX Designer (Lead) — Saburly

Aug 2017 – Mar 2019

(Startup · B2B SaaS)

- Lead designer for a small startup serving mostly Swedish B2B clients, also shaping internal product concepts alongside client work.

UI/UX Designer — Social Explorer

Apr 2015 – Jul 2017

(Product company, team of 4)

- One of four designers on a product team, contributing to projects that won the 20th Annual Webby Award in Law and a 2015 Webby Award Honor for Best Government website.
- Designed data-heavy, accessibility-conscious interfaces for government and public-sector users.

SKILLS

Product Design: Interaction Design · UI/UX · Wireframing · Interface Design · Design Systems · User Flows · Information Architecture · Usability Testing · User Research · Accessibility (WCAG)

Prototyping: Rapid Prototyping · Interactive Prototyping · Motion Design · HTML/CSS (working knowledge) · AI Tools (Zed, Claude)

Tools: Figma · Figma Make · Sketch · Adobe Creative Suite · Principle · V0 · Replit · Jira · Slack · Abstract

Collaboration: Cross-functional Collaboration · Product Owner Partnership · Developer Handoff · Agile / Scrum · Early-feedback Culture

EDUCATION

M.A. Product Design, Academy of Fine Arts, Sarajevo, BiH	<i>2012 – 2013</i>
B.A. Product Design, Academy of Fine Arts, Sarajevo, BiH	<i>2008 – 2011</i>
